

Locker Shortage Resolution

We have a problem with the locker service that we provide and need your help and cooperation to solve it. As you probably know, we provide lockers as a service to our members and their guests - either as an annual rental, or free as “day lockers”. It’s a wonderful amenity to having your own locker as you can leave your personal belongings here at the club in a secure place. The annual rental price is \$375 for a half size locker and \$225 for a third size locker. We will be adding locker nameplates shortly.

Here’s the problem. Some members have been leaving their belongings in the day lockers and taking home the keys. No kidding. Perhaps people have erroneously thought these lockers were available to them as a part of their membership, but they’re not. This has created a shortage of available day lockers for other members and their guests.

Here’s how we’re going to fix the problem. On Sunday evening, March 2 we are going to empty all day lockers and remove any property we find. We’ll place this property in bags/baskets and tag with the locker number so members who have not removed their property in advance can then claim their property. If you have left personal belongings in a locker here that you don’t rent, please stop in and remove your belongings by Sunday, March 2 and leave the key. We will continue the “bag and tag” process on a regular basis going forward so this problem does not reoccur.

We trust that we can solve the locker shortage problem by going through this process, and apologize for any inconvenience in advance. If all of our members respect the policy of using day lockers as they were intended, and renting lockers if they prefer the convenience of leaving their belongings here, we will all be better off.

Thanks for your cooperation and for your ongoing support.
